2.2 EEOC Statement

In order to provide equal employment and advancement opportunities to all individuals, employment decisions at the SGFPD will be based on merit, qualifications and abilities. The SGFPD does not discriminate in employment opportunities or practices on the bases of race, color, religion, sex, national origin, age, disability or any other characteristic protected by law. The SGFPD will make reasonable accommodations for qualified individuals with known disabilities unless doing so would result in an undue hardship. This policy governs all aspects of employment, including selection, job assignment, compensation, discipline, termination and access to benefits and training. Any employee with questions or concerns about any type of discrimination in the workplace is encouraged to bring these issues to the attention of their immediate supervisor. Employees can raise concerns and make reports without fear of reprisal. Anyone found to be engaging in any type of unlawful discrimination will be subject to disciplinary action, up to and including termination.

2.3 Drug and Alcohol Use Policy

It is the SGFPD's desire to provide a drug free, healthful, and safe workplace. To promote this goal, employees are required to report to work in an appropriate mental and physical condition in order to perform their jobs in a satisfactory manner. While on the SGFPD premises, and while conducting business related activities off the SGFPD premises, no employee should use, possess, distribute, sell or be under the influence of alcohol or illegal drugs. The legal use

of prescribed drugs is permitted on the job only if it does not impair an employee's ability to perform the essential functions of the job effectively and in a safe manner that does not endanger other individuals in the work place. If a possibility of impairment may result from the legal use of a prescribed drug, the employee's immediate supervisor shall be notified immediately. Violations of this policy may lead to disciplinary action, up to and including termination of employment, and or required participation in a substance abuse rehabilitation or treatment program. Such violations may also have legal consequences.

Working or reporting for work under the influence of alcohol, or with sufficient alcohol in their systems to result in a positive test.

It shall be a violation of this policy for an employee to be convicted of a violation of any criminal drug or alcohol statute, when the conviction:

Arises out of a violation that occurred in the fire department workplace. Prevents the employee from performing the regular duties of his or her assigned position because:

The employee is incarcerated as a result of the conviction.

The crime committed bears such a relation to the employee's regular duties that the fact of its commission renders the employee unfit to continue to perform those duties.

Compliance with this policy, including participation in drug testing and alcohol testing, is a condition of continued employment/membership with

the fire department. Any refusal to submit to a drug test or alcohol test, or refusal to cooperate with the fire department in any of the procedures involved in the drug and alcohol testing provided for by this policy, shall be a violation of this policy. For purposes of this policy, refusal shall include not only an express refusal to submit to a drug test or an alcohol test, but also any failure to appear for any test, failure to report a serious incident, or any absence or departure from fire department work that occurs without a verified legitimate reason:

After the employee learns that he or she is required to submit to the test or tests.

Fire department employees are prohibited from altering, tampering in any manner with, or substituting a sample for a drug test or alcohol test or otherwise interfering with any testing procedures.

The fire department shall require employees to submit samples for testing in order to enforce the prohibitions of this policy and to comply with

applicable laws and regulations.

2.3.1.5 Enforcement of This Policy

In order to enforce the prohibitions of this policy against drugs and alcohol, the fire department may:

Performs drug and alcohol testing of applicants for fire department employment or membership.

Perform drug or alcohol testing of employees when "reasonable suspicion" exists as defined in this policy.

Perform drug and alcohol testing of fire department employees following serious incidents.

Perform random drug and alcohol testing of fire department employees.

The fire department may require any applicant for employment or membership to submit to a drug test or an alcohol test. The fire department shall not employ an applicant who has tested positive on a drug test or an alcohol test conducted pursuant to this policy. Such an applicant shall be considered physically unfit to perform fire department work. Drug testing and alcohol testing are conditions of employment and/or membership by the fire department. Therefore, any applicant who refuses to submit to a test of either type shall be denied employment and/or membership with the fire department.

All fire department employees shall report all serious incidents occurring in the fire department workplace to their immediate supervisor, or higher authority if the immediate supervisor is unavailable without delay. Any employee who delays in reporting an incident within the prescribed period shall be considered to have violated this policy, unless the employee is physically unable to make the report or such other extreme or extraordinary circumstances exist that justify the

failure to report. Any employee whose actions or failure to act the fire department determines to be, or cannot rule out as, a causative factor in a serious incident occurring in the fire department workplace, shall be required to submit to a drug test and an alcohol test. Additionally, any employee who sustains an injury in the fire department workplace that requires medical treatment beyond first aid shall be required to submit to a drug test and an alcohol test for purposes authorized by the Louisiana Workers' Compensation Act, LA-R.S. 23:1021 et seq. when appropriate, a positive test under this section may also be considered a positive test for all other purposes of this policy.

All fire department employees who occupy safety-sensitive positions shall be subject to random drug testing. The selection process shall be such that for each testing occasion, every fire department employee has a substantially equal chance of being selected to provide a sample for testing.

2.3.1.6 Discipline

The purpose of this section is defining circumstances that constitute just cause for disciplinary action. Neither this section nor any part of this policy is intended to deny or otherwise limit an employee's right to due process protections guaranteed the employee under the United States and Louisiana constitutions, or to any appeal of rights available to the employee under the municipal fire and police civil service system.

An employee commits a violation of this policy when the employee:

Unlawfully manufactures, distributes, dispenses, possesses, or uses any drug in the fire department workplace in violation of this policy.

Consumes alcohol in the fire department workplace in violation of this policy.

Refuses to submit to a drug or alcohol test.

Has a positive drug or alcohol test after a serious incident as determined by the policy.

2.3.1.7 Appeal of Positive Test

If an appeal to the appropriate board (municipal fire & police civil service board for full-time employees, board of commissioners for part-time employees and volunteers) includes a positive test for drugs or alcohol, the fire department may introduce a written report of the results of the test if:

A notice of the report is filed with the appropriate board and mailed to all parties twenty days prior to the hearing date.

Verified documentation of the chain of custody is submitted with the expert's report with an affidavit that states the documentation was made at or near the time of the chain of custody in the course of regularly conducted business activity.

An employee may challenge the testing procedure and/or chain of custody by giving ten days from receipt of the above referenced documents to the fire department and the appropriate board. At the next scheduled hearing the appropriate board will review the challenge and decide if it is necessary to have a full hearing on the validity and/or chain of custody of the drug or

alcohol test results.

If the board finds that there is a procedure error in the administration of the test, the board may deny admissibility of the test. If there is no challenge to the testing procedure, the certified report and affidavits will be admitted into evidence at the hearing as prima facie proof of its contents, provided that the party against whom the report is sought to be used may summon and examine those making the original of the report as witnesses under cross examination.

The employee may overcome this presumption of regularity by providing a preponderance of proof that the collection, shipping, testing, and medical review officer procedures contain irregularities. The board may order a full hearing on the validity of the documents if it deems necessary.

2.3.1.8 Self Referral

An employee who has never tested positive for drugs or alcohol while employed by the fire department may, at any time prior to the occurrence of a serious incident within the meaning of this policy, refer himself or herself for evaluation and treatment of a drug or alcohol abuse problem. An employee may only self-refer under this policy one time during all fire department employment.

An employee shall not be disciplined solely because of the self-referral and shall, with respect to any violations of this policy that occur after the self-referral, retain all rights available to employees under this policy.

The intent to self-refer shall be declared to the Fire Chief or Deputy Fire Chief in accordance with procedures established by the fire department pursuant to this policy.

The employee shall execute a referral

agreement, in which the employee shall verify the intent to seek evaluation and treatment for a drug or alcohol abuse problem and acknowledge the consequences of self-referral. The referral agreement shall be executed before a notary public and two witnesses. The employee shall have no right of appeal from the execution of the referral agreement.

An employee who executes a referral agreement shall not thereafter be permitted to return to work until such time as a physician or other health care provider acceptable to the fire department physician has evaluated the employee and certified that the employee has obtained rehabilitation or treatment and is fit to return to the performance of the regular duties of his or her position. The fire department shall be under no duty to transfer the employee to a different position or otherwise provide work for the employee during this period. The employee may use any accrued annual or compensatory leave time during the time he or she is not permitted to return to work; however, the employee shall be placed on leave without pay if all such leave time is exhausted during this period.

The circumstances of the employee's self-referral, including the records of the employee's evaluation and treatment shall, to the extent practical, be held confidential by the fire department. The only records pertaining to the self-referral maintained in the employee's personnel file shall be the original referral agreement.

2.3.1.9 Referral Agreement

In this referral agreement, the employee shall agree to participate in a rehabilitation program under such terms and conditions as the fire department may require and agree to submit to future testing at the fire department's discretion as part of a monitoring program for a period not to

exceed 24 months from the date of return to duty after evaluation, on the condition that a second positive test will result in the employee's dismissal. An employee shall be permitted to enter into only one referral agreement during all fire department employment. The referral agreement shall be executed before a notary public and two witnesses. If the employee violates any terms of the referral agreement, he or she will be dismissed.

An employee who enters into a referral agreement shall not thereafter be permitted to return to work until such time as a physician or other health care provider acceptable to the fire department physician has evaluated the employee and certified that the employee has obtained rehabilitation or treatment and is fit to return to the performance of the regular duties of his or her position. The fire department shall be under no duty to transfer the employee to a different position or otherwise provide work for the employee during this period. The employee may use any accrued annual or compensatory leave time during the time he or she is not permitted to return to work; however, the employee shall be placed on leave without pay if all such leave time is exhausted during this period.

inappropriate to contact that person, the employee should immediately contact the Fire Chief or any other member of management. Employees can raise concerns and make reports without fear of reprisal. Any supervisor, manager, or employee who becomes aware of possible sexual or other unlawful harassment should promptly advise the Fire Chief, or another member of management, who will handle the matter in a timely, confidential manner.

Any conflict arising from an encounter should be immediately reported to your supervisor for resolution. Any time a conflict arises, the personnel involved should maintain a courteous posture, refer the offended party to their immediate supervisor and disengage themselves from the situation.

Employees who have disagreements should maintain a calm professional demeanor while attempting to resolve them. Yelling, screaming, and abusive or threatening behavior or actions between employees are forbidden in the work place. Employees unable to settle their differences should contact their immediate supervisor for resolution.

No part of the immediately preceding section shall be construed to prohibit reasonable activity to prevent injury and or potentially unsafe acts that may result in injury or damage if immediate and direct action is not taken.
